The International Symposium on Porous Materials 2019 will take place during November 17 - 19, 2019 in Japan. The symposium is intended to provide a forum for researchers in East Asia to discuss recent developments in research and applications of porous materials including zeolites, mesoporous silicas, MOFs, and so on. The symposium will consist of about 16 invited lectures as well as contributed posters. There will only be one single session throughout the meeting, which is aimed to facilitate focused and detailed discussion among the participants.

On behalf of the organizing committee of the International Symposium on Porous Materials 2019, we are happy to announce and cordially invite your organization to join this symposium that will take place in Tokyo, Japan, Nov. 17-19, 2019.
